SUMMARY

Frontend-focused full-stack engineer building responsive React 19 and Next.js interfaces, from booking platforms to data-dense dashboards. Integrates REST APIs and OAuth; shipped a 35-page client website and a Chrome extension (424 installs).

EDUCATION

VIT Bhopal University Bhopal, India
B.Tech in Computer Science and Engineering (AI & ML) 2024–2028

TECHNICAL SKILLS

Frontend: React 19, Next.js (App Router), JavaScript (ES6+), TypeScript, Vite, Tailwind CSS, React Router, HTML5, CSS3, Responsive Design, Accessibility
Animation & 3D: Three.js, React Three Fiber, Rapier Physics, GSAP, Framer Motion, HTML5 Canvas
Browser APIs & Libs: Web Speech API, Chrome Extension APIs (MV3), pdf.js, SheetJS, PapaParse, EmailJS, Axios
Backend & APIs: Node.js, Express.js, FastAPI, REST APIs, Firebase, Google OAuth, JWT, Zod, PHP
Databases & Cloud: PostgreSQL, Supabase, MySQL, Vercel, Render **Tools:** Git, GitHub, VS Code, Chrome DevTools

EXPERIENCE

Frontend Web Development Intern – AKS (Remote) May 2026 – Sept. 2026

- Developed the hero, homepage, and login page as reusable React components for a live product (4-developer team).
- Integrated Firebase and Google OAuth for auth and session state, and a Typeform flow behind the main CTA.
- Refined component hierarchy, eliminated layout shifts, and ensured multi-device responsiveness.

AI Engineering Intern – NimbleBiz (Remote) Sept. 2026 – Present

- Built a Next.js (App Router) speech-analytics dashboard: hourly call-density heatmap, spike alerts, filterable interaction tables, audio-chat widgets, GSAP/Framer Motion transitions.
- Integrated a multi-tenant FastAPI backend (JWT auth, rate limits, quotas) into the UI, with client-side limit handling and telemetry views.

Freelance Full-Stack Web Developer – DevInterio 2026

- Built and deployed a 35-page responsive business website (HTML/CSS/JS, PHP, MySQL) for an interior design client, reaching 392 active users year-to-date; compressed hero images (∼60% lighter) and fixed cross-browser layout offsets.
- Built blog/video/gallery admin tooling and handled post-launch server, routing, and caching issues.

PROJECTS

StylistAI – AI-Powered Appointment Booking Platform Live Demo | GitHub
React 19, Vite, React Router v7, Tailwind CSS, Web Speech API, Node.js/Express, Groq LLaMA, Supabase

- Built a 4-portal app (customer, AI assistant, staff timetable, admin) with protected routes and a text/voice chat UI (Web Speech API) with live extracted-parameter badges and EmailJS confirmations.
- Wrote a 900+ LOC availability engine (hours, breaks, stylist certifications) preventing slot conflicts; consumes Zod-validated JSON from an Express REST API with a 3-tier LLM fallback (100% schema-validation success).

GST Reconciliation Engine – Financial Audit Dashboard
React 19, TypeScript, Vite, Tailwind CSS, SheetJS, PapaParse, Fuzzball

- Designed a dashboard matching ERP invoices to GSTR-2B returns: CSV/Excel intake, discrepancy grid, audit modals.

NoteLift – Chrome Extension Chrome Web Store | GitHub
JavaScript, Chrome Storage API, Manifest V3

- Published a privacy-first text-to-note extension with 424 installs and 50+ weekly active users: iframe-aware capture, local storage, no backend.

Personal Portfolio rohitdubey.dev
React, Tailwind CSS, Three.js, React Three Fiber, Vite

- Built a responsive portfolio with an interactive 3D badge and tuned Core Web Vitals; 640+ active users and 8,000+ tracked interactions.

CERTIFICATIONS

Oracle AI Database SQL Certified Associate (Oct. 2026, ID 329262618DB23AISQLOCA)
Java Certified Foundations Associate – Oracle (Jun. 2026, ID 329262618JAVA8OJA) | Career Essentials in GitHub (Jan. 2026)
Cloud Computing (Elite) – NPTEL, IIT Kharagpur (Jan.–Apr. 2026, ID NPTEL26CS55S1052405143)
Applied Machine Learning in Python – Univ. of Michigan, Coursera (Jan. 2026, coursera.org/verify/7RSUPVFLCPS3)
